<https://www.linkedin.com/mwlite/in/rishikesh-ombase-11989b1ab>

Skills

Python Developer

Machine Learning

Deep learning

Data Science

Computer Vision (OpenCV)

Framework (Flask, Django, FastAPI, React js)

Cloud (AWS)

Personal Details

GitHub : <https://github.com/Rishikesh0>

Objective

Data scientist with 1+ years of experience executing data-driven solutions to increase efficiency accuracy and utility of internal data processing experience at creating data models using predictive data modeling and analyzing data mining algorithm to deliver insights and implement action oriented solution to complex business problems

Experience

Varilligence Technologies Private Limited

Sept - 2020

Junior Data Scientist

- Jan - 2022

Face Recognition

- Developed facial recognition system(detection, recognition, stroing result).using python, Open cv,& face-recognition
- Responsible for the selection of computer vision and machine learning algorithms of achive the most accurate and efficient recognition system
- Used in Multiple drone applications for Attendance, Find missing person, etc

POC :- Stock Prediction

- Conduct data on financial analysis of the relationship between company stock pricies and industry trends achieving more accurate prediction of performance that previous year
- Utilze web scraping techniques to extract and organize computer data
- LSTM model which is train to predict the future outcome
- Modernize data streamlining processes resulting in redundancy reduction

Education

Shivaji University

2022

MSc Computer Science

Achievements & Awards

- Machine Learning In Python
- Data Analysis With Python
